

Camp Maintenance Worker

Yukon Zinc Corporation has an immediate need for an experienced **Camp Maintenance Worker** at its Wolverine Mine in the southeast Yukon Territory.

Make Wolverine Mine your next career choice!

- ✓ *A new team for a new mine creates opportunities for professional achievement*
- ✓ *A commitment to values: Safety, Integrity, Respect, Accountability, Prosperity, Collaboration*
- ✓ *Charter flights direct to site from Whitehorse, Vancouver and Prince George...currently with pick up points in Campbell River, Smithers, Terrace, Watson Lake and Ross River.*
- ✓ *Company supported travel to the charter's pick up point*

Responsibilities

Complete work based on Company guidelines for safety, environmental compliance and general work practices and procedures. More specific responsibilities to include:

- Oversee all site-wide building related maintenance, and projects, as directed by the Site Services Supervisor
- Inspect and review existing structures and additions ensuring all work is in accordance with building code standards
- General camp maintenance
- Preventative maintenance of camp equipment and appliances
- Troubleshoot and perform minor repairs on plumbing systems
- Maintain and monitor safety, fire and emergency equipment systems
- Assist crews with snow removal and other site services tasks
- Maintenance of HVAC systems, plumbing and gas appliances
- Specific projects as assigned
- Other duties as may be reasonable assigned by your Supervisor

Requirements

- Minimum of two years experience in a similar position
- Able to work with minimal supervision
- Preferences will be given to applicants with any Red Seal certification in the building trades
- Valid driver's license
- Excellent work ethics and demonstrated record of safety leadership.
- Proficient in Word, Excel, Email.
- Excellent written and verbal communication skills.
- Able to work a 2 week x 2 week rotation
- Remote camp (northern climate) experience preferable.

Wolverine is a "dry camp", fly-in/fly-out underground mine operation. The minesite is located midway between Ross River and Watson Lake on the Robert Campbell Highway and is approximately 280 km by air northeast of Whitehorse.

Interested and qualified candidates should send their resume via email to careers@yukonzinc.com, or by fax, toll-free, at (866) 887-7517. We thank all applicants for their interest; however, we are only able to contact those who have been shortlisted.
