

Mill Operators – Wolverine Mine, Yukon

Yukon Zinc Corporation is calling for qualified personnel to submit resumes for **Mill Operator** positions in the processing plant at its Wolverine Mine, scheduled for start-up in early third quarter this year. Wolverine Mine located in the southeast Yukon Territory.

We're building a new team for a new mine with new equipment! Come join us!

Initially expected to be part of plant commissioning later this spring, the positions will transition to the operations team.

Requirements

- Demonstrated processing plant operating experience in any or all of the following:
 - ✓ Control Room
 - ✓ Flotation
 - ✓ Grinding
 - ✓ Dewatering
 - ✓ Crushing
- Experience in copper, zinc, lead mineral processing is an asset
- Excellent work ethics and demonstrated record of safety leadership
- Remote camp (northern climate) experience preferable

Wolverine is a fly-in/fly-out underground mine operation that will produce on average 1,700 tonnes per day run-of-mine feed. The minesite is located almost midway between Ross River and Watson Lake on the Robert Campbell Highway and is approximately 250 km by air northeast of Whitehorse.

These positions will be on a rotational work schedule of 2 weeks in x 2 weeks out.

Interested and qualified candidates should send their resume via email to careers@yukonzinc.com, or by fax at 604-682-5404. We thank all applicants for their interest, however, only those shortlisted will be contacted.
