

## Senior Mine Engineer - Wolverine Mine, Yukon

Yukon Zinc Corporation is seeking an experienced underground **Senior Mine Engineer** at its Wolverine Mine project in the southeast Yukon Territory.

**Are you looking for a challenging opportunity at a new mine? Make Wolverine your next career choice!**

- ✓ *A new team for a new mine creates opportunities for professional achievement*
- ✓ *A commitment to values: Safety, Integrity, Respect, Accountability, Prosperity, Collaboration*
- ✓ *Charter flights direct to site from Vancouver and Prince George...with pick up points in Campbell River, Smithers, Terrace, Watson Lake.*
- ✓ *Company supported travel from your nearest airport to the charter's pick up point*

### Responsibilities

Reporting to the Technical Services Superintendent, the Senior Mine Engineer will play a lead role in the safe development and operations of the underground mine. More specific responsibilities include:

- Oversee the underground mine planning and design process
- Schedule mine development, stope production and backfill
- Oversee the operation of the mine ventilation system including ensuring compliance with government regulations
- Monitor the geotechnical stability of underground openings
- Track and control mine production and costs
- Coordinate underground development and production with the mine contractor
- Maintain effective records of mine production and as-built records
- Contribute to the development of the company safety culture

### Requirements

- Mine Engineering related university degree and a minimum of 5 years of progressively responsible experience in underground mining
- Eligible for registration as a Professional Engineer in the Yukon Territory
- Demonstrated record of safety leadership
- Proficiency in mine planning software; Surpac, Mine 2-4-D and AutoCAD, preferable.
- Excellent skills in developing and using spreadsheets.
- Experience in development of a new mine considered an asset
- Excellent written and verbal communication skills
- Able to work a rotational work schedule of 2 weeks in x 2 weeks out
- Consent to a pre-employment medical examination which includes a drug & alcohol screening

Wolverine is a "dry camp", fly-in/fly-out underground mine operation. The minesite is located midway between Ross River and Watson Lake on the Robert Campbell Highway and is approximately 280 km by air northeast of Whitehorse.

Interested and qualified candidates should send their resume via email to [careers@yukonzinc.com](mailto:careers@yukonzinc.com), or by fax, toll-free, at (866) 887-7517. We thank all applicants for their interest; however, we are only able to contact those who have been shortlisted.
