

## Heavy Duty Mechanic, Wolverine Mine, Yukon

Yukon Zinc Corporation has an immediate need for experienced **Heavy Duty Mechanics** at its Wolverine Mine in the southeast Yukon Territory.

**Make Wolverine Mine your next career choice!**

- ✓ *A commitment to values: Safety, Integrity, Respect, Accountability, Prosperity, Collaboration*
- ✓ *Charter flights direct to site from Vancouver and Prince George...currently with pick up points in Campbell River, Smithers, Terrace, Watson Lake and Ross River.*
- ✓ *Company supported travel from your nearest airport to the charter's pick up point*

### Responsibilities

Reporting to a Surface Maintenance Foreman, Heavy Duty Mechanics are primarily responsible for ensuring the mechanical availability of the mine's surface mobile equipment. More specific responsibilities include:

- Conduct preventive maintenance and repairs to surface heavy equipment (eg. loaders, excavators, rock trucks, bulldozers) and light vehicles.
- Coordinate with warehousing for ordering and stocking of necessary parts
- Coordinate with maintenance planning for establishing and carrying out effective preventative maintenance programs.
- Assist in the development of safe work and operating procedures for rolling stock and stationary surface equipment.
- Provide assistance to plant, powerhouse, and underground maintenance personnel, as required.

### Requirements

- Trade qualification as a Heavy Duty Equipment Mechanic (Technician). Interprovincial (Red Seal) certification preferred
- Minimum 3-years experience in the maintenance of diesel and gasoline mobile and stationary equipment, preferably in an industrial or heavy industry setting
- Experience with maintenance of underground mobile equipment would be an asset
- Excellent work ethics and demonstrated record of safety leadership
- Valid driver's license
- Proficient in Word, Excel, Email
- Able to work a rotational work schedule of 2 weeks in x 2 weeks out.
- Remote camp (northern climate) experience preferable.
- Consent to a pre-employment medical examination which includes a drug & alcohol screening.

Wolverine is a "dry camp", fly-in/fly-out underground mine operation. The minesite is located midway between Ross River and Watson Lake on the Robert Campbell Highway and is approximately 250 km by air northeast of Whitehorse.

Interested and qualified candidates should send their resume via email to [careers@yukonzinc.com](mailto:careers@yukonzinc.com), or by fax, toll-free, at (866) 887-7517. We thank all applicants for their interest; however, we are only able to contact those who have been shortlisted.
